

Mathematics 2200H – Mathematical Reasoning

TRENT UNIVERSITY, Fall 2021

[Last modified 2020-09-01.]

Instructor

Stefan Bilaniuk (pronounced Стефан Біланюк)

office: ENW 337

hours: Mondays & Thursdays 11:00-11:50 and

Tuesdays & Wednesdays 10:00-10:50, or just drop by.

phone: 705 748-1011 x7474

e-mail: sbilaniuk@trentu.ca

home: 705 742-7862 [Do not call between 9 p.m. and 8 a.m. unless it's an emergency.]

web: <http://euclid.trentu.ca/math/sb/>

Department of Mathematics

Colleen Berrigan

office: SC 327

hours: Weekdays 08:30-16:30

phone: 705 748-1011 x7715

e-mail: math@trentu.ca

Prerequisite

MATH 1120H or 1350H.

Text

A Gentle Introduction to the Art of Mathematics, Version 3.1, by Joseph Fields. The text is freely distributable under the terms of the *GNU Free Documentation License*, version 1.3, and may be downloaded from <https://giam.southernct.edu/GIAM/>, or locally from Blackboard and the MATH 2200H archive page. There may also be a few handouts augmenting the text at various points.

Meetings

Lectures: Mondays 09:00-09:50 in ENW 106, Tuesdays 11:00-11:50 in ENW 103, and Wednesdays 14:00-14:50 in ENW 106.

Seminars: Mondays 10:00-10:50 in ENW 108.

An attempt may be made to record and post the lectures – technology, room layouts, etc. permitting – for the sake of students unable to attend in person. No guarantees ...

Marking Scheme

There will be at least eleven weekly assignments and a take-home final examination. The best ten assignments will each count for 6.5% of the final mark and the final exam will count for the remaining 35%. Note that more 25% of the course marks will be obtained by the final date (Tuesday, 9 November) to withdraw from Fall half-courses without academic penalty. Assignments will be accepted after the due date at the instructor's sole discretion; students unable to hand them in on time for reasons beyond their control should contact the instructor as soon as possible.

This scheme may be modified in *exceptional* circumstances, such as a lengthy absence due to illness. Any such modification will require the agreement of both the student and the instructor.

Learning Outcomes

This course is an introduction to the basics of handling abstractions and doing mathematical proofs while acquiring familiarity with a number of basic concepts, drawn from logic, set theory, number theory, and combinatorics, which are used in many mathematical fields. Successful students finishing the course should be able to solve problems using the methods developed in the course, read and write mathematics effectively using appropriate notation, and formulate and communicate logically correct proofs.

Schedule

Please note that where the material covered is concerned this schedule is a polite fiction: no lesson plan survives contact with actual students unchanged!

Week 0. (9–10 September) Classes begin Thursday, 9 September ... but MATH 2200H doesn't meet on Thursdays or Fridays.

Week 1. (13–17 September) Problem-solving, logic. Assignment #1 due on Friday, 17 September.

Week 2. (20–24 September) Propositional logic, deductions. Assignment #2 due on Friday, 24 September.

Week 3. (27 September – 1 October) Some basic set theory, functions, relations. Assignment #3 due on Friday, 1 October.

Week 4. (4–8 October) First-order logic: relations and quantifiers. Assignment #4 due on Friday, 8 October.

Week 5. (11–15 October) Sets, relations, and functions. Assignment #5 due on Friday, 15 October. University closed on Monday, 11 October, for Thanksgiving Day.

Week 6. (18–22 October) Direct and indirect proof techniques. Assignment #6 due on Friday, 22 October.

Fall Reading Week. (25–29 October) Enjoy!

Week 7. (1–5 November) Equivalence relations, definition of integers and rationals. Assignment #7 due on Friday, 5 November.

Week 8. (8–12 November.) Real and complex numbers. Assignment #8 due on Friday, 12 November. The last date to withdraw from Fall courses is Tuesday, 9 November.

Week 9. (15–19 November) Mathematical induction, division and Euclidean algorithms. Assignment #9 due on Friday, 19 November.

Week 10. (22–26 November) Cardinality of sets. Assignment #10 due on Friday, 26 November.

Week 11. (29 November – 3 December) Schröder-Bernstein Theorem. Assignment #11 due and take-home final examination distributed on Friday, 3 December.

Week 12. (6–8 December) Catch-up and clean-up. Wednesday, 8 December, is the last day of classes.

Fall Examination Period. (10–23 December) Take-home final examination due on Friday, 17 December.

Academic Integrity

Academic dishonesty, which includes plagiarism and cheating, is an extremely serious academic offence and carries penalties varying from a 0 grade on an assignment to expulsion from the University. Definitions, penalties, and procedures for dealing with plagiarism and cheating are set out in Trent University's Academic Integrity Policy. You have a responsibility to educate yourself – unfamiliarity with the policy is not an excuse. You are strongly encouraged to visit Trent's Academic Integrity website to learn more – www.trentu.ca/academicintegrity

For clarity, the following guidelines will apply in MATH 2200H:

You are permitted and encouraged to work with others and ask anyone willing (especially the instructor!) for explanations, hints, and suggestions for the assignments, and to consult whatever sources you wish. However, **all work submitted for credit must be written up entirely by yourself, giving due credit to all the sources of help and information that you actually used.** There will be greater restrictions on the take-home final examination, which will be spelled out on the exam.

Access to Instruction

It is Trent University's intent to create an inclusive learning environment. If a student has a disability and/or health consideration and feels that he/she may need accommodations to succeed in this course, the student should contact the Student Accessibility Services Office (SAS), Blackburn Hall Suite 132, 705 748-1281, sas@trentu.ca. For Trent University in Oshawa Student Accessibility Services Office contact 905 435-5102, ext. 5024. Complete text can be found under Access to Instruction in the Academic Calendar.

Archive Page

MATH 2200H has an archive page with links to assignments, exams, and various handouts from previous iterations of the course at: <http://euclid.trentu.ca/math/sb/2200H/> Material from the current iteration of the course will be archived on this page as well from time to time.
