

Mathematics 2260H – Euclidean Geometry  
TRENT UNIVERSITY, Winter 2025  
Optional Extra Assignment # $\pi$   
Tangential Polygons Report  
*Due on Monday, 10 February.\**

1. Go to the talk and write a brief (one or two pages) report about it and how it connects to this course. [10]

NOTE. The speaker, Gillian Turnham, gave an amazing and very well-received talk on *Euclidean Geometry in Islamic Pattern Construction* here at Trent two years ago. I'm hoping this one is similarly, or even congruently, interesting. :-)

---

\* Please submit your solutions, preferably as a single pdf, via Blackboard's Assignments module. If that fails, please submit them to the instructor on paper or via email to [sbilaniuk@trentu.ca](mailto:sbilaniuk@trentu.ca) as soon as you can.
